

SAFETY DATA SHEET

Epoxy Quartz Self-Leveling Floor Coating

Product: DP08 | Edition 1.0 | Issue date: 29 July 2026

1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier: Epoxy Quartz Self-Leveling Floor Coating; product code: DP08; brand: URBVO.

1.2 Relevant identified uses and uses advised against: Identified use: Floor coating for professional/industrial application. Uses advised against: Any use not consistent with the product instructions.

1.3 Details of the supplier of the safety data sheet: Jinhua Puhui Paint Co., Ltd.; No. 241, Huijin Road, Zhenxi Industrial Park, Jindong District, Jinhua City, Zhejiang Province, Building 5, Zhonggu Caozhai Industrial Park, China; Email: Not available.

1.4 Emergency telephone number: +86 177 5796 8868

2. Hazards identification

2.1 Classification of the substance or mixture: Not classified as hazardous according to the GHS/CLP conclusion stated in the source MSDS.

2.2 Label elements: Hazard pictograms: None. Signal word: None. Hazard statements: None assigned. Precautionary statements: None assigned in the source MSDS.

2.3 Other hazards: PBT/vPvB and endocrine-disrupting-property assessments: Not available. Avoid unnecessary contact and observe normal industrial hygiene.

3. Composition/information on ingredients

Ingredient	CAS No.	Content by weight
Silicon dioxide	14808-60-7	47%
Calcium carbonate powder	471-34-1	36%
Bisphenol A epoxy resin	55818-57-0	16%
Polyethylene wax	9002-88-4	1%

4. First-aid measures

4.1 Description of first-aid measures: Skin: Remove contaminated clothing and rinse skin thoroughly with water; wash clothing before reuse. Eyes: Rinse cautiously with water or saline, lifting upper and lower eyelids. Inhalation: Move to fresh air if discomfort occurs. Ingestion: If discomfort occurs, obtain medical attention.

4.2 Most important symptoms and effects: No specific symptoms or delayed effects were identified in the source MSDS.

4.3 Immediate medical attention and special treatment: Treat symptomatically. No specific antidote identified.

5. Firefighting measures

5.1 Extinguishing media: Dry chemical powder, carbon dioxide (CO2) or sand. Use media appropriate for the surrounding fire.

5.2 Special hazards arising from the substance or mixture: The source MSDS describes the product as non-flammable and non-explosive. Hazardous combustion products are not available.

5.3 Advice for firefighters: Fight fire from upwind. Wear self-contained breathing apparatus and suitable protective clothing. Move containers from the fire area if this can be done safely.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures: Ventilate the area. Avoid contact. Wear suitable work clothing and protective gloves.

6.2 Environmental precautions: Prevent uncontrolled discharge to drains, surface water and soil.

6.3 Methods and material for containment and cleaning up: Collect small spills into a dry, clean, covered container. For large spills, recover material where possible or transfer to an authorised waste-treatment facility.

6.4 Reference to other sections: See Sections 8 and 13.

7. Handling and storage

7.1 Precautions for safe handling: Provide adequate local ventilation. Keep away from heat and ignition sources. Do not smoke, eat or drink in the work area. Avoid damaging containers.

7.2 Conditions for safe storage, including incompatibilities: Keep container tightly closed in a cool, dry and well-ventilated place. Keep away from strong oxidising agents and strong acids.

7.3 Specific end use(s): Floor coating for professional/industrial application.

8. Exposure controls/personal protection

8.1 Control parameters: Occupational exposure limits for the mixture were not provided in the source MSDS. Review applicable local limits for individual ingredients before workplace use.

8.2 Exposure controls: Engineering controls: Provide adequate ventilation and access to washing facilities. Respiratory protection: Normally not required under adequately ventilated conditions; use suitable protection if risk assessment indicates. Eye protection: Safety glasses recommended where splashing is possible. Hand protection: Protective gloves. Skin/body protection: Work clothing. Hygiene: Wash after handling; no eating, drinking or smoking in work areas.

9. Physical and chemical properties

Property	Value
Physical state / appearance	Liquid
Colour	Gray
Odour	Weak odor
pH	6-8
Melting/freezing point	Not available
Boiling point/range	Not available
Flammability / flash point	Not available
Lower/upper explosion limit	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Kinematic viscosity	Not available
Solubility	Not available
Partition coefficient n-octanol/water	Not available
Vapour pressure / density	Not available
Relative density	Not available
Particle characteristics	Not applicable to the supplied liquid product

10. Stability and reactivity

10.1 Reactivity: No specific reactivity data available.

10.2 Chemical stability: Stable under normal temperature and pressure.

10.3 Possibility of hazardous reactions: Hazardous polymerisation is not expected under normal conditions.

10.4 Conditions to avoid: Excessive heat, fire and incompatible materials.

10.5 Incompatible materials: Strong oxidising agents and strong acids.

10.6 Hazardous decomposition products: No hazardous decomposition products are expected under normal storage and use; combustion products are not available.

11. Toxicological information

11.1 Information on hazard classes: Acute toxicity, irritation, sensitisation, mutagenicity and carcinogenicity: No known significant effects or serious harm were stated in the source MSDS. Numerical toxicological data and route-specific test results are not available.

11.2 Information on other hazards: Endocrine-disrupting properties and other health effects: Not available.

12. Ecological information

12.1 Toxicity: No ecological toxicity was identified in the source MSDS; numerical data are not available.

12.2 Persistence and degradability: Not available.

12.3 Bioaccumulative potential: Not available.

12.4 Mobility in soil: Not available.

12.5 Results of PBT and vPvB assessment: Not available.

12.6 Endocrine-disrupting properties: Not available.

12.7 Other adverse effects: No other adverse effects were stated.

13. Disposal considerations

13.1 Waste treatment methods: Dispose of product and packaging in accordance with applicable national and local legislation, preferably through an authorised waste contractor. Do not discharge uncontrolled material to drains or the environment.

14. Transport information

14.1 UN number or ID number: Not assigned.

14.2 UN proper shipping name: Not applicable.

14.3 Transport hazard class(es): Not regulated as dangerous goods.

14.4 Packing group: Not applicable.

14.5 Environmental hazards: Not identified as a marine pollutant in the source MSDS.

14.6 Special precautions for user: Protect from damage, rain, high temperature and fire. Do not transport with strong oxidisers or acids.

14.7 Maritime transport in bulk: Not applicable / not available.

Transport status: ADR/RID: Not regulated. IMDG Code Amendment 42-24: Not regulated. IATA DGR 67th Edition (2026): Not restricted.

15. Regulatory information

15.1 Safety, health and environmental regulations: Source MSDS references Regulation (EC) No 1272/2008 (CLP), UN GHS Rev. 11 and ISO 11014:2009. This reformatted SDS uses the 16-section structure of REACH Annex II as amended by Commission Regulation (EU) 2020/878.

15.2 Chemical safety assessment: Not available; no chemical safety assessment was provided.

16. Other information

Revision information: Edition 1.0, prepared 29 July 2026 from source MSDS No. B001R260105001002, dated 5 January 2026. Reformatting and language editing only; no independent testing or classification was performed.

Abbreviations: ADR: European road transport agreement; CLP: Classification, Labelling and Packaging; GHS: Globally Harmonized System; IATA: International Air Transport Association; IMDG: International Maritime Dangerous Goods; N/A: Not available/not applicable; PBT: Persistent, bioaccumulative and toxic; vPvB: Very persistent and very bioaccumulative.

Disclaimer: The information is based on the supplied source MSDS and is believed to be accurate as of its source date. Users must determine suitability for their intended use and comply with applicable laws. The supplier should validate this SDS before issue.
